

Situacioni plan saobraćajne signalizacije za obeležavanje izgrađenih ivičnih traka u dnevnim i noćnim uslovima - FAZA I  
 Situational plan of traffic signalization for marking built-up edge lines in day and night conditions - PHASE I

Noću i u uslovima smanjene vidljivosti, kada se ne izvode radovi, sva saobraćajna oprema se uklanja sa kolovoza, osim vertikalne zapreke postavljene uz izgrađeni ivičnjak, znaci III-303 se prekrivaju, a ostali saobraćajni znakovi i nestandardni znakovi sa fluorescentnom podlogom (I-19, IV-2 i II-30) se zadržavaju!  
 At night and in conditions of reduced visibility, when works are done, all traffic equipment is removed from the carriageway apart from the vertical beacon placed along the built-up curb, signs III-303 are overlapping, and other traffic signs and non-standard signs with fluorescent substrate (I-19, IV-2 and II-30) are retained!
